Mr. Seth Hill

Axos Bank

4350 La Jolla Village Dr,

San Diego, CA 92122

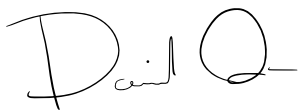

Dear Mr Hill,

It was a pleasure meeting your team at the networking event on February 6th. Upon hearing about the position from Yuka the day before the networking event and the many positive reviews I've heard about the company, I was very excited and immediately followed up at the event.

I have the background for this position in my Design and Interaction studies and the passion to drive new design ideas from interacting with people. A skill that I believe will help me thrive in this position is my ability to observe users and identifying user breakdowns as they interact with a product and making appropriate design changes from feedback.

The idea of driving the "design and development of the next chapter in online banking" as mentioned in the description brings me great excitement and I hope to hear back from your team soon!

Sincerely,

A handwritten signature in black ink, appearing to read "David Q.", with a stylized flourish at the end.

David Jasuan
